- **Date:** 14/12/2023
- **Overall report of the activity (600 words):**

The Research and Development Cell, IIC, and IQAC organized a Demo Day session on "Mushroom Cultivation Technology" on November 25, 2023. The resource person for the training was Mr. Anujit Das, The owner of Earth Star Mushroom. Our distinguished Principle, Madam Dr. Ruma Bhattacharyya, opened the occasion with a welcome statement. All of the participants found her lecture to be incredibly inspiring and motivating. Dr. Debjani Mitra, the convener of BKGC, IIC, oversaw the meeting.

From this program it is well understood that Mushrooms constitute one of the most promising resources for promoting rapid socio-economic development. Cultivation of mushrooms is a source of national income, as well as a means of poverty alleviation as well as in marketing activities as labor-intensive management and offering opportunities for processing enterprises.

Students gained knowledge about the benefits of mushrooms, which are relatively economical because the mushrooms can be grown on several inexpensive agricultural or forest wastes such as rice straw, corn cobs and sawdust. In the quest for economical and ecologically

sound methods for environmental remediation, the use of mushrooms is a very good approach and solution Management from 'waste-to-wealth' is essential for more sustainable farming globally, and increasing mushroom production in India seems a viable and attractive option. Boosting the commercial value of products whether in a fresh or processed form could increase the concentration of demand and encourage market orientation.

Participants gained knowledge of the methods needed to bring a concept to market as well as the challenges involved in Mushroom Culture Technology. Mushroom cultivation utilizing waste materials. Mushroom cultivation is a space-confined technology and requires marginal investment. It utilizes agricultural residue as a substrate for mushroom production.

The session was a fantastic opportunity for the students interested to launch their own businesses and increase their knowledge.
