| TANMOY MONDAL       | Student             | Ramakrishna Mission Vidyamandira      |

## 11. Report on the Programme:

The Department of Philosophy, Department of Economics, and IQAC of Bijoy Krishna Girls' College organized a Special International Talk on **“Gut Feelings and Effortful Thinking”** on 16 January 2026 at Jibanananda Sabhagriha of the college.

The programme was organized in collaboration with Ramakrishna Mission Vidyamandira, Belur. The invited speaker was Dr. Ananish Chaudhuri, Professor of Experimental Economics at the University of Auckland. In his lecture, Professor Chaudhuri discussed the relationship between intuitive thinking (gut feelings) and deliberate or effortful thinking in human decision-making. He explained how individuals often rely on quick intuitive judgments in everyday life, while careful reasoning and analytical thinking are necessary in complex situations. The speaker also discussed the importance of experimental research in economics and social sciences to understand human behaviour and decision-making processes. The lecture was informative and thought-provoking for both students and teachers.

The session was interactive. Participants actively asked questions and engaged in discussion with the speaker. The programme created a valuable opportunity for students to learn from an internationally recognized academic scholar.

## 12. Programme Outcome:

The programme had several important academic outcomes:

- (I). Students gained knowledge about the relationship between intuition and rational thinking.
- (II). The lecture introduced participants to the basic ideas of experimental economics and decision-making.
- (III). The programme encouraged students to think critically about human behaviour and reasoning.
- (IV). It strengthened academic collaboration between the participating institutions.
- (V). Students were exposed to an international academic perspective.
