

Report on Students' Seminar on Environment Day in 5th June 2025

1. Workshop/Seminar/Conference/Invited or Extension Lecture: **Seminar**
2. Online/Offline: **Online**
3. Institutional/International/National/Regional: **Regional**
4. Title: **Awareness Speech Competition**
5. Date: **05.06.2025**
6. Organizer(s): **IQAC, R & D Cell, Department of Botany, Zoology and NSS Unit**
7. Funding (with proof): **NA**
8. Collaborators (with proof): **NA**
9. Resource Persons (with invitation and acceptance letters): **NA**

A Students' Seminar on Environment Day was organized by the IQAC, R & D Cell, Department of Botany, Zoology and NSS Unit on G-Meet on the occasion of International Day for Environment Diversity. The seminar aimed to create awareness among students about the importance of biodiversity, its conservation, and sustainable utilization of biological resources.

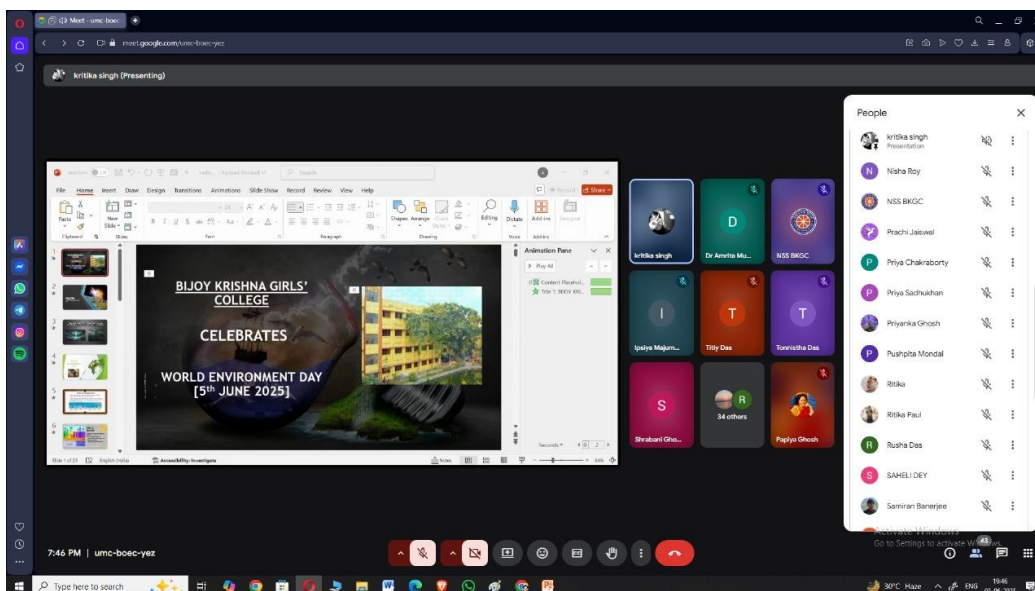

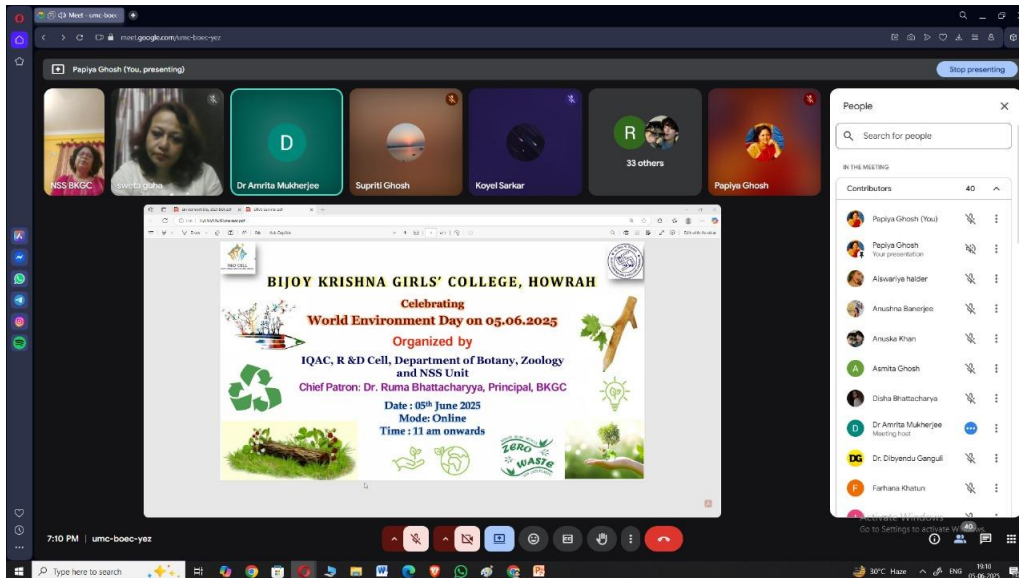

The online program commenced with a welcome address by the IQAC Coordinator, Officer of NSS and Head of the Department, who highlighted the significance of Environment in maintaining ecological balance and supporting human well-being. Students from different semesters actively participated in the seminar and delivered presentations on various topics, including biodiversity conservation, endangered species, ecosystem services, climate change impacts on biodiversity, and strategies for sustainable development.

The seminar provided an excellent platform for students to enhance their knowledge, communication skills, and scientific outlook. Interactive discussions and question-answer sessions encouraged participants to exchange ideas and gain a deeper understanding of current environmental challenges.

The event concluded with a vote of thanks, acknowledging the efforts of the organizers, faculty members, and students. The seminar successfully promoted awareness about the need to conserve biodiversity and inspired students to contribute towards environmental protection and sustainable development.

Outcome:

The seminar enhanced students' understanding of Environment, biodiversity and its conservation, developed their presentation and communication skills, and encouraged environmental responsibility among participants.

CAUSE OF DEFORESTATION:-

- URBANIZATION--**
As cities expand forest are cleared to build **roads, homes and infrastructure**. This leads to habitat destruction and fragmentation.
- NATURAL FIRE--**
Wildfire caused by **lightning or extreme drought** can destroy vast areas of forest. Climate change has increased the frequency and intensity of these fire.
